CAAB Form-27: Application for Certificate of Registration of aircraft	
CA-27A : Sample Certificate of Registration	
AWS-51: Certificate of Aircraft Mortgage Registration	

1. INTRODUCTION

This Chapter provides detailed requirements for registration of aircraft.

- 1.1 The registration of aircraft by the CAAB is for the purpose of controlling the safety of aviation in Bangladesh and it in no way establishes the legal ownership of an aircraft. This ANO shall not apply to meteorological pilot balloons used exclusively for meteorological purposes or to unmanned free balloons without a payload.

2. DEFINITIONS

- a) **Aeroplane:** A power-driven heavier-than-air aircraft, deriving its lift in flight chiefly from aerodynamic reactions on surfaces which remain fixed under given conditions of flight.
- b) **Aircraft:** As defined in section 2 (24) of Civil Aviation Act, 2017.
- c) **Airship:** A power-driven lighter-than-air aircraft.
- d) **Balloon.** A non-power-driven lighter-than-air aircraft.
- e) **Nationality Mark:** A group of characters affixed on aircraft surface to identify the country to which the aircraft belongs.
- f) **Registration Marks:** A group of characters affixed on aircraft surface following Nationality marks to identify a particular aircraft.
- g) **Fireproof material.** A material capable of withstanding heat as well as or better than steel when the dimensions in both cases are appropriate for the specific purpose.
- h) **Glider.** A non-power-driven heavier-than-air aircraft, deriving its lift in flight chiefly from aerodynamic reactions on surfaces which remain fixed under given conditions of flight.
- i) **Heavier-than-air aircraft:** Any aircraft deriving its lift in flight chiefly from aerodynamic forces.
- j) **Helicopter:** A heavier-than-air aircraft supported in flight chiefly by the reactions of the air on one or more power-driven rotors on substantially vertical axes.
- k) **International operating agency:** An agency of the kind contemplated in Article 77 of the Convention
- l) **Lighter-than-air aircraft.** Any aircraft supported chiefly by its buoyancy in the air.
- m) **Ornithopter.** A heavier-than-air aircraft supported in flight chiefly by the reactions of the air on planes to which a flapping motion is imparted.
- n) **Remotely piloted aircraft (RPA):** An unmanned aircraft which is piloted from a remote pilot station.
- o) **Rotorcraft:** A power-driven heavier-than-air aircraft supported in flight by the reactions of the air on one or more rotors. State of Registry. The State on whose register the aircraft is entered.

- p) **State of Registry.** The State on whose register the aircraft is entered.
- q) **National Record System:** Register of Nationality & Register Marks maintained by CAAB.

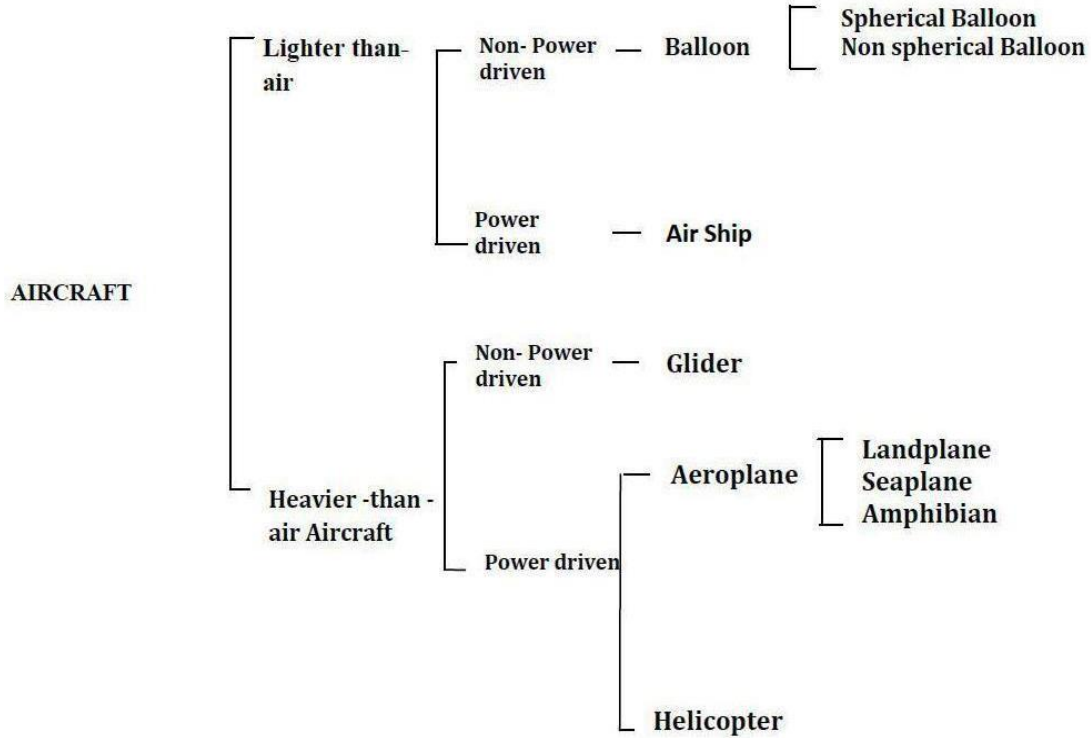

3. SCOPE

3.1 This ANO specifies the requirements governing:

- (i) the registration of aircraft in the People's Republic of Bangladesh;
- (ii) the allocation of nationality and registration marks for Bangladeshi registered aircraft;
- (iii) the display of nationality and registration marks on Bangladeshi registered aircraft.
- (iv) Deregistration/cancellation of registration of aircraft;
- (v) National Record system;

4. CLASSIFICATION OF AIRCRAFT

- (a) Aircraft shall be classified in accordance with Table- 1.
- (b) An aircraft which is intended to be operated with no pilot on board shall be further classified as unmanned.
- (c) Unmanned aircraft shall include unmanned free balloons and remotely piloted aircraft.

Table 1: Aircraft Type

5. NATIONALITY AND REGISTRATION MARKS

- (a) An aircraft registered under this ANO, shall attain Bangladesh nationality.
- (b) Bangladeshi registered aircraft shall bear the nationality mark and registration mark as required by this Part.
- (c) The nationality mark of a Bangladesh aircraft is the symbol "S2" which shall precede the registration mark.
- (d) The registration mark of a Bangladesh aircraft is a group of three letters, being the letters assigned to the aircraft on its registration. This letter group shall be preceded by a hyphen.
- (e) On application, Mode-S code for transponder will be allocated with 24-bit address code for the aircraft which consists of
 - 12-bit address code allocated to Bangladesh by the International Telecommunication Union for all aircraft; and
 - 12-bit address code specific to individual aircraft within the series of symbol allocated by the International Telecommunication Union.
- (f) A Bangladeshi registered aircraft shall carry, secured to the aircraft in a permanent position near the main entrance, a plate of fireproof metal or other fireproof material of suitable physical properties inscribed with the nationality mark and registration mark of the aircraft and with such other details as the Chairman requires to give effect to the Chicago Convention.
- (g) When letters are used for the registration mark, combinations shall not be used which might be confused with the five-letter combinations used in the International Code of Signals, Part II, the three-letter combinations beginning with Q used in the Q Code, for

example QNH, QFE and QNE, and with the distress signal SOS, or other similar urgent signals, for example XXX, PAN and TTT.

- (h) An aircraft shall not bear any marks which purport to indicate that the aircraft is:
- registered in a country in which it is not in fact registered; or
 - a state aircraft of a particular country if it is not in fact such an aircraft, unless the appropriate authority of that country has sanctioned the bearing of such marks.
- (i) In case of using national flag/Emblem, appropriate Bangladesh National Rule/Regulation shall be applicable.

Note: *Nationality Registrations Marks may be allocated before initiating the importation of aircraft which will remain same until registration of the aircraft.*

6. LOCATION OF NATIONALITY AND REGISTRATION MARKS

The nationality mark and the registration mark of a Bangladesh aircraft shall be affixed on the aircraft by painting or by any other means that ensures a similar degree of permanency. The Marks shall be clean and visible at all times.

6.1. Lighter-than-air Aircraft

1. **Airships:** The marks on airships shall appear either in the hull or on the stabilizer surfaces. Where the marks appear on the hull, they shall be located lengthwise on each side of the hull and also on its upper surface on the line of symmetry. Where the marks appear on the stabilizer surface, they shall appear on the horizontal and on the vertical stabilizer; the marks on the horizontal stabilizer shall be located on the right half of the upper surface and on the left half of the lower surface, with the tops of the letters and numbers toward the leading edge; the marks on the vertical stabilizer shall be located on each side of the bottom half stabilizer, with the letters and numbers placed horizontally.
2. **Spherical balloons (other than unmanned free balloons):** The marks shall appear in two places diametrically opposite. They shall be located near the maximum horizontal circumference of the balloon.
3. **Non-spherical balloons (other than unmanned free balloons):** The marks shall appear on each side. They shall be located near the maximum cross-section of the balloon immediately above either the rigging band or the points of attachment of the basket suspension cables.
4. **Lighter than air Aircraft (other than unmanned free balloons):** The side marks shall be visible both from the sides and from the ground.

6.2. Heavier-than-air aircraft

1. **Wings:** On heavier-than-air aircraft, the marks shall appear once on the lower surface of the wing structure. They shall be located on the left half of the lower surface of the wing structure unless they extend across the whole of the lower surface of the wing structure. So far as is possible, the marks shall be located equidistant from the leading and trailing edges of the wings. The tops of the letters and numbers shall be toward the leading edge of the wing.

2. **Fuselage (or equivalent structure) and vertical tail surfaces:** On heavier-than-air aircraft, the marks shall appear either on each side of the fuselage (or equivalent structure) between the wings and the tail surface or on the upper halves of the vertical tail surfaces. When located on a single vertical tail surface, they shall appear on both sides. When located on multivertical tail surfaces, they shall appear on the outboard sides of the outer surfaces.

Special cases: If a heavier-than-air aircraft does not possess parts corresponding to those mentioned in 1 & 2 of 6.2, the marks shall appear in a manner taking account of the need for the aircraft to be identified readily.

7. MEASUREMENTS OF NATIONALITY AND REGISTRATION MARKS

The letters and numbers in each separate group of marks shall be of equal height.

7.1. Lighter-than-air aircraft

- 7.1.1. The height of the marks on lighter-than-air aircraft other than unmanned free balloons shall be at least 50 centimeters.
- 7.1.2. *Special cases.* If a lighter-than-air aircraft does not possess parts of sufficient size to accommodate the marks described in 7.1.1, the measurements of the marks shall be determined by the State of Registry, taking account of the need for the aircraft to be identified readily.

7.2. Heavier-than-air aircraft

- 7.2.1. **Wings:** The height of the marks on the wings of heavier-than-air aircraft shall be at least 50 centimeters. .
- 7.2.2. **Fuselage (or equivalent structure) and vertical tail surfaces:** The height of the marks on the fuselage (or equivalent structure) and on the vertical tail surfaces of heavier- than- air aircraft shall be at least 30 centimeters. The mark on the fuselage shall not interfere with the visible outline of the fuselage (or equivalent structure). The marks on the vertical tail surfaces shall be such as to leave a margin of at least 5 centimeters along each side of the vertical tail surface.
- 7.2.3. **Special cases.** If a heavier-than-air aircraft does not possess parts corresponding to those mentioned in 7.2.1 and 7.2.2, the measurements of the marks shall be such that the aircraft can be identified readily.

8. TYPE OF CHARACTERS FOR THE NATIONALITY AND REGISTRATION MARKS

- 8.1. The letters shall be capital letters in Roman characters without ornamentation. Numbers shall be Arabic numbers without ornamentation.
- 8.2. The width of each character (except the letter I and the number 1) and the length of hyphens shall be two-thirds of the height of a character.
- 8.3. The characters and hyphens shall be formed by solid lines and shall be of a colour contrasting clearly with the background. The thickness of the lines shall be one-sixth of the height of a character.

8.4. Each character shall be separated from that, which it immediately precedes or follows, by a space of not less than one-quarter of a character width. A hyphen shall be regarded as a character for this purpose.

9. REGISTER OF NATIONALITY & REGISTRATION MARK:

9.1. The register of Bangladesh aircraft shall include the following details in relation to each aircraft:-

- (a) the nationality and registration marks with respect to the aircraft;
- (b) the name, nationality and address of the owner of the aircraft;
- (c) Operator/Lessee' Name, nationality and address(where applicable);
- (d) Manufacturer and Type of Aircraft;
- (e) Serial No. and Date of Construction;
- (f) Number of the Certificate of Registration;
- (g) Date of registration of the aircraft;
- (h) a description of the aircraft;
- (i) Signature of the Registration Officer;
- (j) Date & Time of removal from the Register;
- (k) Remarks.

10. AMENDMENT OF THE REGISTER

- (a) CAAB may when it considers it necessary for the purposes of this regulation to do so amend the register.
- (b) Due to change of owner/operator/Lessee in the Certificate of Registration under this ANO, the registration number of aircraft shall remain the same.
- (c) Mortgage recording & release of mortgage will also be mentioned in the register as applicable.

11. APPLICATION FOR REGISTRATION

11.1. Any qualified person defined by Civil Aviation Requirements holding a legal interest by way of ownership, or share in an aircraft and/or having lease arrangement with owner of the aircraft may apply for registering an aircraft in Bangladesh;

11.2. Where two or more qualified person mentioned in 11.1 who jointly have acquired an interest as owner, purchaser under a hire purchase agreement, hirer or charterer in Bangladesh aircraft, those persons shall officially nominate one of them as an applicant for registration of aircraft in Bangladesh.

11.3. Operator/lessee duly authorized by the owner may also apply for registration of aircraft in Bangladesh.

11.4. Application for registration shall be made through CAAB Form 27 with the associated documents such as:

- (a) A receipt for the appropriate fee.
- (b) Proof of foreign registration cancellation.
- (c) Bill of sale or conditional sales contract.
- (d) Insurance Certificate.
- (e) A Radio Station License issued by the competent authority of Bangladesh.
- (f) Import permit issued by the competent authority of Bangladesh.
- (g) Bangladesh customs clearance certificate.
- (h) Any other documentation as may be required by the Chairman.

11.5. The requirements of (d), (e), (f) & (g) shall be governed by the current policy of the concerned competent authority/ministry of the Bangladesh Government.

11.6. For issuance of Restricted Certificate of Registration, all the above requirements shall have to be complied except submission of custom clearance.

12. CERTIFICATE OF REGISTRATION

12.1 Upon registering an aircraft, CAAB shall issue a certificate of registration as per CAAB Form-27A in the name of the owner.

12.2 The Certificate of Registration issued by CAAB shall be carried on board of every Bangladeshi aircraft engaged in international operation.

13. DENIAL OF REGISTRATION:

No aircraft shall be registered if it does not

- fulfill all other applicable requirements;
- comply with the requirements for issuance of Certificate of Airworthiness & ARC;
- hold a valid type certificate at the time of application.

14. IDENTIFICATION PLATE

14.1 An aircraft shall carry identification plate(s) inscribed with the following information:

- (i) the nationality and registration mark;
- (ii) name of the owner;
- (iii) aircraft manufacturer's name;
- (iv) aircraft model;
- (v) aircraft serial number;
- (vi) type certificate/TCDS number;

14.2 The plate(s) shall be made of fireproof metal or other fireproof material of suitable physical properties;

14.3 The identification plate(s) shall be secured to the aircraft in a prominent position near the main entrance.

15. CHANGE OF CERTIFICATE OF REGISTRATION

15.1 Registered owner of an aircraft registered under this ANO shall immediately not later than 03(three) weeks inform CAAB in writing of:-

- (i) change of ownership, through sale or otherwise;
- (ii) any change of lease agreement requiring amendment of any content of the Certificate of Registration;
- (iii) the Certificate of Registration has been lost/theft/mutilated;
- (iv) mortgaging the aircraft for financial reason;
- (v) any change in the particulars furnished to CAAB when application was made for registration.

15.2 Registered owner/new owner as applicable or authorized representatives shall submit a new application on CAAB Form -27 and attach the followings as applicable:

- (a) An affidavit from the previous owner which has been authenticated by a notary, together with a statement that the aircraft has been sold or transferred to a new owner;
- (b) The existing Certificate of Registration, discharged in favor of the new owner by completing the relevant portion, if not already provided by the registered owner which is not applicable for (c);
- (c) Where a certificate has been lost/theft, a copy of the GD lodged with the police for the loss/theft;
- (d) Mortgage agreement etc.;
- (e) For amendments of any entry other than change of owner/operator, evidence required for affecting the amendments;
- (f) A receipt for the appropriate fee.

15.3 Until the Certificate of Registration is changed, it shall not be lawful to fly or assist in flying such aircraft;

15.4 Application for Mortgage/Mortgage Release shall be made through CAAB Form-71, Certificate of Aircraft Mortgage Registration by filling relevant portion as applicable attaching relevant agreement/documents.

16. DEREGISTRATION/CANCELLATION OF REGISTRATION OF AIRCRAFT

16.1 The registration of an aircraft registered in Bangladesh may be cancelled at any time by CAAB, if it is satisfied that:-

- a) such registration is not in conformity with the civil aviation requirements; or
- b) the registration has been obtained by furnishing false information; or
- c) the aircraft could more suitably be registered in some other country; or
- d) the aircraft has been destroyed or permanently withdrawn from use; or
- e) it is inexpedient in the public interest that the aircraft should remain registered in Bangladesh; or
- f) the lease in respect of the aircraft registered
